

Shengda Tebaite low-carbon doors and windows have a 50-year historical heritage (spiritual heritage). The company is headquartered in Baoding, Hebei, National High-tech Industrial Development Zone, with a registered capital of 50 million and an annual output of 100,000 tons of various high-quality energy-saving profiles. Green low-carbon energy-saving doors and windows are 30 10,000 square meters, including 50,000 square meters of passive ultra-low energy doors and windows. Shengda Tebaite is a supplier of high-efficiency energy-saving door and window systems and a supplier of passive ultra-low energy consumption door and window systems. It was the first in the industry to obtain PHI certification from the German Passive House Institute, and several series were selected into the passive low-energy building product selection catalog of the Ministry of Housing and Urban-Rural Development of China. Tebaite series door and window products have successively won the "Top Ten Brands in China's Door and Window Industry", "Gold Medal in China's Door and Window Industry" and passed the "Energy Saving Label for Building Doors and Windows" and "China Green Building Materials Product Certification" by the Ministry of Housing and Urban-Rural Development of China. The product quality is guaranteed by the Chinese Insurance

coverage.

Shengda Tebaite adheres to the simple life attitude and provides human beings with a low-carbon and environmentally friendly living space.
